**ISOLATORS (GLOVE BOXES)**

**STERILE STORAGE CABINETS (CUPBOARDS)**

---

# CLEAN ZONES

---

There are two types – stationary and movable  
(with mandatory testing of filter sealing tightness after the zone relocation)

---

# CLEAN ROOMS

---

Having a 15-year experience of manufacturing clean zones and clean rooms,  
our specialists perform customized engineering to customer's needs

---

# CUSTOMIZED ENGINEERING

---

Customized products for specific purposes in accordance  
with the customer's technical specification

*Zone-cabinet with  
upward laminar air flow*

*Vertical laminar flow cabinets  
with extended working chamber*

*Positive pressure isolator*

# LAMSYSTEMS

About 7,000 square meters of production area is equipped with modern tools and machines of world-famous brands including German, Japanese, Swiss companies. All the products have quality certificates.

## PRODUCTION

## LABORATORY

Our test laboratory at all times controls materials, design and technology, applying modern tools and equipment which allows to develop products in accordance with world quality and safety standards.

## ACCEPTANCE TESTING

Acceptance testing area is designed as a clean room of cleanliness class 7; it provides all necessary conditions for conducting tests of all series-made products.

## SERVICE

High quality service requirement is a significant part of our enterprise's culture. Experienced service engineers carry out any maintenance and repair of our equipment.
